Product Description

Factory Customized 17.3 Inch Portable Monitor 4K Computer Display HDR IPS Gaming Screen

4K Ultra HD Resolution

The portable monitor features a 4K Ultra HD resolution, which provides incredibly sharp and detailed visuals. With a resolution of 3840x2160 pixels, it delivers a high level of clarity and enhances your viewing experience.

Large Screen Size

The 17.3-inch screen size offers a spacious viewing area, making it suitable for multitasking, gaming, video editing, and other activities that require ample screen real estate. The larger portable monitor size provides a more immersive visual experience.

Portable Design

Despite its larger screen size, the portable monitor is designed to be lightweight and compact. It is easily transportable, making it convenient for professionals, gamers, content creators, and anyone who requires an additional screen on the go.

Multiple Connectivity Options

The portable monitor usually offers multiple connectivity options to ensure compatibility with various devices. It may include HDMI, DisplayPort, USB-C, and other ports, allowing you to connect it to laptops, desktops, gaming consoles, smartphones, and more.

Plug-and-Play Functionality

The portable monitor typically supports plug-and-play functionality, which means you can connect it to your device without the need for additional software or drivers. This makes it easy to set up and use the monitor right away.

Adjustable Stand or Cover

The portable monitor may come with an adjustable stand or a protective cover that doubles as a stand. This allows you to find the optimal viewing angle and position the monitor according to your preference.
