Product Description

Gaming Monitor 27 Inch 100hz 144hz 165hz Ips Screen Desktop Computer Monitor

Curved Display

The 27-inch gaming monitor features a curved screen design. The curvature creates a more immersive viewing experience, wrapping the display around your field of vision and providing a wider viewing angle.

Display Size and Resolution

The gaming monitor has a 27-inch screen size, ideal for gaming and multimedia consumption. The Full HD resolution of 1920x1080 pixels offers sharp and detailed visuals.

Variable Refresh Rate

The 27-inch gaming monitor offers a variable refresh rate, which can be 100Hz, 144Hz, or 165Hz. A higher refresh rate allows for smoother motion and reduces motion blur during fast-paced gaming.

Halo Lighting on the Back

The unique feature of this 27-inch gaming monitor is the halo lighting on the back. The halo lighting creates an ambient glow or illumination effect, adding visual flair to your gaming setup.

Additional Features

Depending on the specific model, the 27-inch gaming monitor may include additional features such as built-in speakers, USB ports for peripheral connectivity, adjustable stands for ergonomic positioning, and customizable RGB lighting effects.
