Product Description

Computer Monitor 24 Inch Lcd Monitor Ips Panel Hdmi Vga Inputr For Desktop Pc

Vibrant IPS Panel

The 24 inch monitor features an IPS (In-Plane Switching) panel, which offers superior color accuracy, wider viewing angles, and excellent image quality. With IPS technology, you can enjoy consistent and vivid colors from various viewing positions, making it ideal for tasks that require accurate color representation.

Crisp Full HD Display

The 24 inch led monitor showcases a 1920x1080 pixel resolution, providing sharp and detailed visuals. This resolution ensures clear text, sharp images, and accurate graphics, enhancing your overall productivity and visual experience.

Smooth Refresh Rate

With a refresh rate of 75Hz, the 24 inch lcd monitor delivers smooth visuals and reduced motion blur compared to standard 60Hz monitors. This enhanced refresh rate ensures a smoother experience when browsing, working on documents, or watching videos.

LED Backlighting

The 24 inch monitor utilizes LED (Light Emitting Diode) backlighting, offering several advantages such as energy efficiency, better color reproduction, and a thinner form factor. LED backlighting provides consistent and uniform brightness across the screen, resulting in a more comfortable viewing experience.

Wide Viewing Angle

The 24 inch led computer monitor provides a wide viewing angle, allowing you to view the screen comfortably from different positions or angles without significant color or contrast shifts. This feature is particularly useful for collaborative work, presentations, or when sharing the screen with colleagues.

Desktop Computer 24 Inch Monitor
