10.4 Inch Wall Mount Industrial Touch Screen Pc All-In-One Ip65 Panel Pc Computer

Display

The computer features a 10.4-inch LCD display with a high resolution for clear and vibrant visuals. It offers a touchscreen interface, allowing users to interact with the computer easily.

Embedded Design

The 10.4 inch all in one computer is designed to be embedded into walls or other surfaces, making it suitable for space-constrained environments. Its compact size ensures it doesn't take up much space while providing powerful computing capabilities.

Metal Shell

The 10.4 inch all in one computer's metal shell provides excellent durability and protection against physical damage. It enhances the device's sturdiness, making it suitable for rugged environments or areas where there may be a higher risk of impact.

IP65 Waterproof Level

The IP65 waterproof rating means the computer is protected against dust and water jets from any direction. This level of waterproofing ensures its usability in environments where moisture, dust, or other particles may be present, such as factories, warehouses, or outdoor installations.
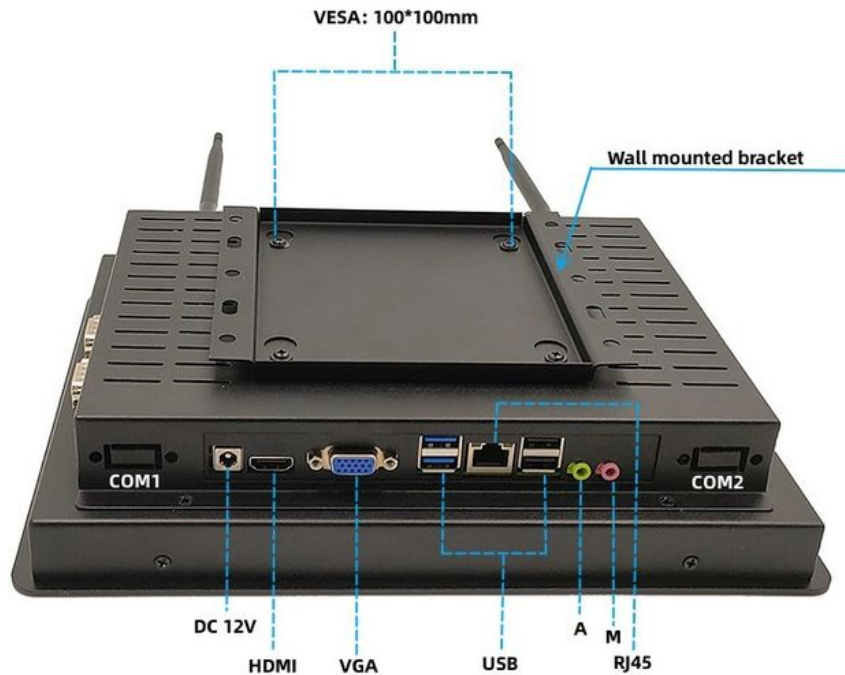

All-in-One Functionality

This 10.4 inch all in one computer integrates various hardware components into a single device, eliminating the need for separate components. It typically includes a processor, memory, storage, connectivity options (such as Wi-Fi and Ethernet), USB ports, audio, and video interfaces, allowing for a comprehensive computing experience.

Operating System

The 10.4 inch all in one computer can typically run various operating systems such as Windows, Linux, or Android, depending on the specific model and customer requirements.
