

15.6 Inch Android 11 POS System with Printer 4GB RAM 64GB Storage

Our Product Introduction

Basic Information

- Place of Origin: china
- Brand Name: OEM/ODM
- Certification: FCC CE ROHS
- Minimum Order Quantity: 1
- Price: \$150-\$210
- Packaging Details: 50*30*52 CM
- Delivery Time: 7DAY
- Payment Terms: T/T, PayPal, credit card, Western Union
- Supply Ability: 5000

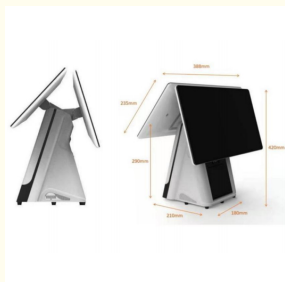

Product Specification

- CPU: RK3566
- Screen Proportion: 16:9
- RAM: 4GB
- Hard Disk: 64GB
- Brightness: 300cdm2
- Resolution: 1920*1080
- Highlight: 15.6 inch POS system with printer, all-in-one cash register POS, industrial touch monitor cashier system

Product Description

15.6-inch Android 11 All-in-One POS System with Printer

15.6 inch Android 11 POS system is a powerful and modern all-in-one solution that combines a cash register, a responsive touch screen, and a high-speed printer into a single, compact device. Running on the latest Android 11 operating system, it provides a fast, secure, and user-friendly platform for any business looking to streamline its operations.

Specification

Processor	RK3566
RAM	4GB
Memory	64G
OS	Android 8/10/11
touch screen	10 point capacitive touch
Visual angle	178/178
Transmittance	≥90%
Contrast	1000:1
brightness	300cdm2
Main Screen	15.6 inch, With Touch
Secondary screen	15.6 inch, NO Touch

Core Features & Benefits

1. Android 11 Operating System

The use of Android 11 gives this POS system a significant advantage. It offers:

Enhanced Performance: A fast and smooth user experience for both staff and customers.

Improved Security: The latest security patches protect sensitive transaction data.

Broad Compatibility: Access to a vast ecosystem of Android apps, allowing you to choose from a wide range of POS software tailored to your specific industry (e.g., retail, restaurants, salons).

2. All-in-One Integrated Design

This system's integrated design is built for efficiency and a clean workspace. It includes:

15.6-inch Touchscreen: A large, high-definition capacitive display that is highly responsive and easy to navigate.

Built-in Printer: An integrated high-speed thermal printer that eliminates the need for an external device, saving counter space and reducing cable clutter.

Integrated Computer: The main unit houses a powerful processor and a solid-state drive (SSD), ensuring fast boot-up times and smooth performance during peak hours.

3. Optimized for Versatility

This POS system is perfect for a wide variety of business types:

For Retail: The system simplifies inventory management, tracks sales, and processes payments with ease. The Android platform allows you to use software that supports barcode scanning, customer loyalty programs, and e-commerce integration.

For Restaurants & Cafes: It helps staff manage orders, customize menus, and send tickets directly to a kitchen or bar printer. The intuitive interface is easy for new staff to learn, speeding up service.

4. Extensive Connectivity

Despite its compact design, this POS unit offers comprehensive connectivity to support all your essential peripherals:

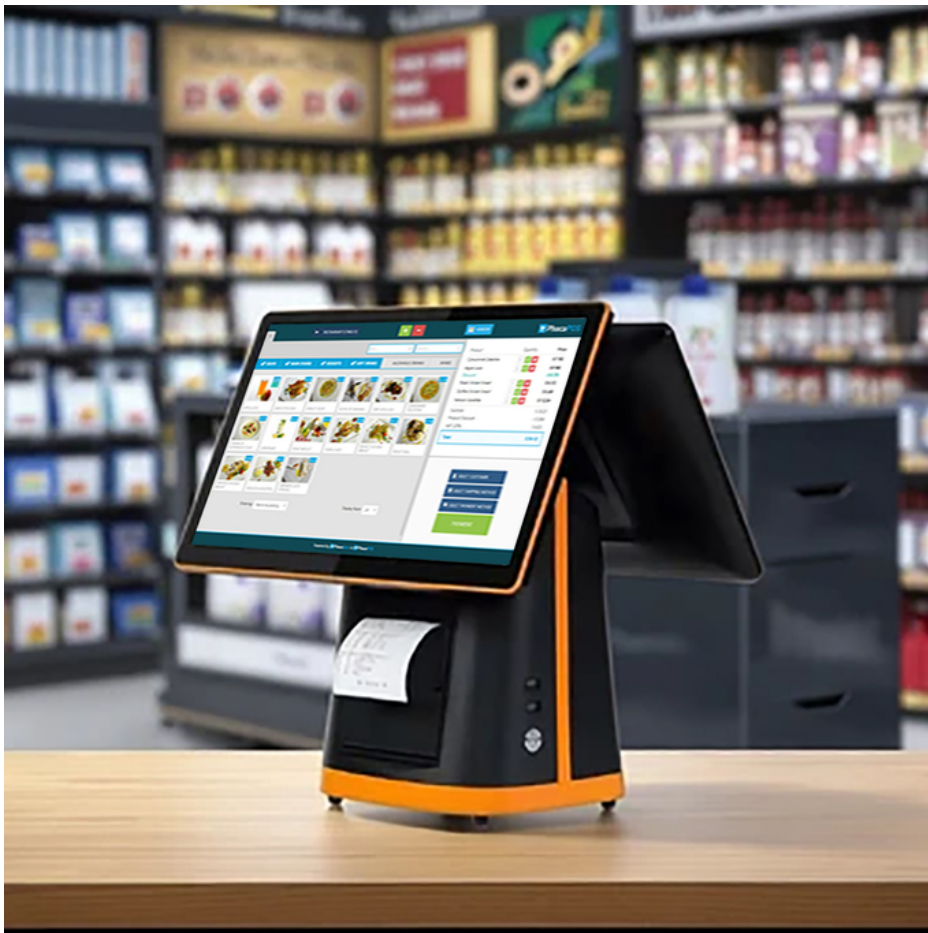

Wireless: Built-in Wi-Fi and Bluetooth for seamless network connections and pairing with devices like barcode scanners or customer displays.

Wired: Multiple USB, LAN (Ethernet), and cash drawer ports for a stable and reliable connection to all your accessories.

This 15.6-inch Android 11 All-in-One POS system is a smart investment that provides a modern, efficient, and reliable solution to manage your business operations and enhance the customer experience.
