Cheap 15.6 Inch High Quality Android POS Cash Register

Product Advantages

- 1.Superior User Experience and Efficiency
Large High-Definition Touchscreen: The 15.6-inch large screen offers a wide operating interface, coupled with HD resolution (1920*1080), providing clear visuals and enabling cashiers to process orders quickly and accurately.
Deeply Customized Android System: Based on the deeply optimized Android operating system (e.g., Android 8.1/11), the interface is intuitive and easy to learn, allowing for quick mastery. It also supports flexible secondary development and customized application integration for merchants.
Capacitive Touch: Utilizes multi-point capacitive touch technology (such as G+G, supporting 10-point touch), ensuring sensitive and smooth touch response, offering a user experience comparable to a tablet computer.
- 2.Powerful Commercial Performance and Reliability
High-Performance Processor: Equipped with a quad-core or octa-core high-performance processor (such as RK3368/RK3568 series) to ensure smooth software operation and fast data processing, maintaining stability even in high-frequency transaction environments.
Commercial-Grade Hardware Design: Features a durable casing material (such as ABS combined with metal). Many models are designed to be dustproof, oil-proof, and splash-proof, making them suitable for high-intensity, complex commercial environments.
Rich Interface Scalability: Provides a variety of external interfaces (USB, COM/RS232, LAN, HDMI, etc.), facilitating connection to various peripherals like cash drawers, barcode scanners, electronic scales, and external printers.
- 3.Integrated Multifunctionality and Convenience
Integrated Design: Host, monitor, and touchscreen are highly integrated.
Multiple Network Connections: Supports Ethernet, Wi-Fi, and Bluetooth, ensuring stable network connectivity to meet the networking needs of different store types.
Optional Integrated Modules: Can be optionally configured with function modules such as NFC readers, MSR magnetic stripe readers, RFID, and facial recognition cameras based on specific needs, enabling diverse payment and membership management solutions.

Specifications

Display Screen	15.6 inch
Resolution	1920*1080 (FHD)
Touch Technology	10 point Capacitive Touch
Operating System	Android 8.1 / Android 11 or higher
Central Processing Unit (CPU)	RK3566
Memory (RAM)	2GB / 4GB DDR3/DDR4 (Higher optional)
Storage (ROM)	32GB / 64GB SSD
Network Connectivity	Ethernet (10/100M/1000M adaptive), Wi-Fi, Bluetooth
Interfaces	USB 2.0/3.0, LAN (RJ45), HDMI, VGA
Optional Function Modules	MSR magnetic stripe card, NFC/RFID reader, 1D/2D barcode scanning, Camera/Facial Recognition

HIGH DEFINITION SCREEN 1920 * 1080 RESOLUTION

Adopting high-definition display panel, excellent color expression ability, bright and clear image quality, and richer field of view

15.6-inch LCD screen

PRODUCT PARAMETERS

Product name: All in one POS cash register

Size: 15.6"

Processor: RK3566

System: Android system

Memory: 2+32GB

Resolution: 1920*1080

Interface: HDMI, USB, RJ45, SD, DC

APPLICATION FIELD

RESTAURANT

RETAIL STORE

SUPERMARKET

CONVENIENCE STORE

FAST FOOD

Coffee shop

Supermarket

Clothing store

Restaurant

Convenience store

Retail store

Application Scenarios

A. Food & Beverage Industry (F&B)

1. Fast Food/Coffee Shops: Quick ordering and checkout, stable system, supports electronic payments.

2. Chinese/Western Restaurants: Large screen facilitates managing complex menus and table status; can interface with kitchen KDS.

3. Bubble Tea/Bakery Shops: Integrated printer (optional) quickly prints receipts and order numbers, manages membership cards/vouchers.

B. Retail Industry (Retail)

1. Chain Convenience Stores: Integrated design saves space, supports quick inventory checks, member points, and promotional campaigns.

2. Brand Specialty Stores: Large screen enhances brand image, clearly displays promotions (dual screen), optimizing the shopping experience.

3. Boutiques/Jewelry Stores: High-definition screen beautifully displays product images, supports detailed inventory management.

4. Supermarkets/Fresh Food Stores: Can connect to electronic scales to get weight data, achieving integrated weighing and checkout.

C. Service Industry (Service Industry)

1. Beauty Salon/SPA: Flexible Android system allows for easy installation of customized software for appointment management, member top-up, and technician commissions.

2. Hotels/Inns: Used at the front desk for quick check-ins and check-outs, managing room status and deposits.

3. Cinemas/Theaters: Fast ticket printing and code scanning for entry; large screen facilitates operation.

D. Other Specialized Scenarios

1. Self-Service Kiosks/Information Terminals: The POS machine can be embedded into a self-service cabinet to serve as the touch operation and payment module.

2. Logistics/Courier Stations: Used for quickly entering package information, calculating shipping fees, and processing payments.

3. Medical Clinics/Pharmacies: Used for registration, billing, pharmacy management, and handling medical insurance payments.

In short, this 15.6-inch Android POS cash register can be used in any commercial location that requires fast transactions, inventory management, member marketing, and integrated payment solutions.
