## Product Description

### POS Cash Register Machine ---11.6-15.6 inch options available Supports dual screen/single screen---Optional with cash drawer, printer, and scanner

#### Product Core Overview

We specialize in providing highly modular and flexibly configurable smart POS hardware. This product is based on a robust and durable industrial design, offering you a choice of high-definition touchscreens in various sizes from 11.6 to 15.6inch, and supports single-screen or efficient dual-screen hardware configurations (the staff operation screen and customer display screen can operate independently).

As hardware customization experts, we can tailor the most suitable hardware combination solution for you based on your counter space, business flow, and functional needs, ensuring that the equipment seamlessly integrates into your operational environment at a physical level.

#### Hardware configuration

Receipt Printing: Optional built-in thermal printer available: 58/80mm optional. Achieve quick ticket issuance

Efficient Recognition: Compatible with various types of barcode scanners for quick product identification

Safe Storage: Can be connected to a dedicated cash register drawer to enable synchronized printing and opening.

#### Custom Structure Services:

We can provide customized solutions for the physical structure of the equipment, such as installation methods, interface layout, and screen tilt, based on your specific needs.

#### Application scenarios

Retail Stores: Supermarkets, Convenience Stores, Brand Specialty Stores

Catering Services: Restaurants, Cafes, Fast Food Restaurants

Life Services: Hair Salons, Beauty Salons, Pet Shops

Shopping Mall Counters: Cashiers for various shopping mall counters and stalls

#### Why choose us?

Pure Equipment Experts: We focus on providing reliable and durable POS hardware equipment, without involving software, allowing you to freely choose the most suitable system partner.

Deep hardware customization: From size and screen to peripheral connections, we offer true hardware customization solutions, rather than simply selling standard products.

Flexible configuration freedom: Offers modular options, allowing you to flexibly select and upgrade hardware according to the stage of your business development.

Solid Quality Assurance: The product adheres to industrial-grade standards, ensuring stable operation in a commercial environment.
