Product Description

Floor-Standing Self-Service Payment Terminal

[Exclusive for Channel Partners] Empower Business Partners, Co-Create a Smart Retail Ecosystem

Partnership Value

We understand the core demands of business partners—we don't just deliver quality devices, but a complete solution that drives your profitability:

Cost-Effective Supply: As a direct factory, we offer highly competitive pricing and bulk purchase policies to ensure your profit margins.

Hassle-Free Technical Support: 7×12-hour technical response, remote debugging, and on-site support to resolve all technical challenges during project implementation.

Comprehensive After-Sales Guarantee: 1-year full-device warranty and lifetime maintenance, reducing your after-sales costs and customer complaint risks.

Customization Capabilities: End-to-end customization from hardware functions to system integration, enabling you to deliver tailored solutions for your clients and increase project win rates.

Factory Strength & Credibility

Large-Scale Production: 20,000 modern manufacturing facility with a monthly capacity of 5,000 units, ensuring fast order fulfillment.

Quality Control System: CE, FCC, and other international certifications. Full-process quality inspection from raw materials to finished products ensures reliable performance of every device.

R&D Capability: In-house R&D team that iterates products quickly based on industry trends, continuously providing your clients with cutting-edge technical solutions.

Key Partnership Scenarios

Our devices have served many well-known chain brands and are ideal for:

Chain Catering Upgrades: Self-ordering + payment integrated solutions for fast food and coffee brands, increasing table turnover by over 30%.

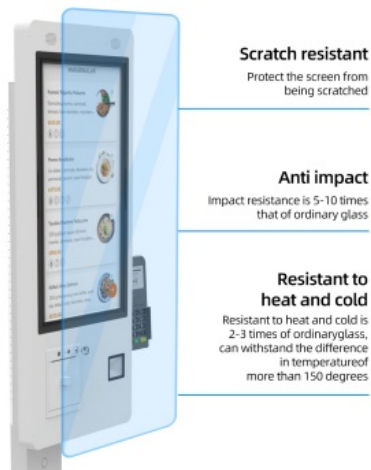

Retail Digital Transformation: Unmanned checkout scenarios for supermarkets and convenience stores, reducing labor costs by 25%-40%.

Cultural & Tourism Ticketing Systems: Self-service ticketing and verification terminals for scenic spots and cinemas, reducing wait times and improving visitor satisfaction.

Government & Public Services: Self-service terminals for government and healthcare scenarios, enhancing public service efficiency.

Explore the Device in Detail

Durable Metal Enclosure: The scratch-resistant, corrosion-proof metal paint finish ensures the terminal retains its professional appearance even in high-traffic environments.

Industrial-Grade Touchscreen: The 1080P full HD display features 10-point capacitive touch and reinforced tempered glass, offering 5–10 times the impact resistance of standard glass and reliable performance in temperatures from -10°C to 50°C.

High-Speed Thermal Printer: A built-in 200mm/s thermal printer produces clear, smudge-free receipts without ink cartridges, cutting down on operational costs.

Stable Vertical Base: The weighted base design prevents tipping and ensures secure placement on any floor type, even in busy locations.

Tailored to Your Needs

Every component of our terminal can be customized to align with your project requirements:

Hardware Expansion: Add cameras, fingerprint scanners, card readers, or keypads to support member verification, identity checks, and more.

System Integration: Our open HD, USB, WAN, and VGA interfaces enable seamless connection with your ERP, CRM, or membership systems for full data interoperability.

Branding Options: Print your client's logo on the device and customize the UI to create a consistent brand experience for end-users.
