## Product Description

### 21.5 Inch Vertical Self-Service Kiosk | All-in-One Touch POS Terminal

#### Product Overview

This 21.5-inch all-in-one vertical self-service kiosk integrates high-definition capacitive touch screen, built-in 80mm thermal printer, QR code scanner, audio playback and multi-network connection. Customizable hardware and operating systems make it an ideal self-service solution for restaurants, retail stores, cinemas, government halls, hospitals and transportation hubs. It reduces labor costs, speeds up customer service and upgrades consumer experience, fully supporting OEM & ODM customization for global merchants.

#### Core Selling Points

##### 1. Premium 10-Point Capacitive Touch Screen

10-point multi-touch capacitive touch, sensitive 20g lightweight touch induction  
G+G armored touch glass with over 90% light transmittance  
Ultra-durable touch panel, supports more than 50 million touch times without lag  
Anti-scratch, anti-fingerprint tempered glass, stable for long-time commercial use

##### 2. Full HD 1080P Wide View Display

21.5" 16:9 industrial screen, 1920\*1080 FHD resolution  
300cd/m<sup>2</sup> high brightness, clear display under indoor ambient light  
1000:1 high contrast ratio, rich and true color reproduction  
89° ultra-wide viewing angle in all four directions, no color distortion from any viewing position

##### 3. Fully Customizable Hardware & System

All core configurations can be adjusted according to your business demands:  
Custom CPU, RAM, storage hard disk  
Support Windows / Android customizable operating system  
Flexible hardware matching for light retail use or heavy-duty continuous operation

##### 4. All-Round Connectivity for Stable Operation

Dual network: 802.11b/g/n WiFi + 10/100Mbps wired Ethernet port  
Built-in Bluetooth module for connecting external Bluetooth peripherals  
Rich reserved ports: Multiple USB 2.0, RJ45 LAN port  
Wide-range power input AC 100-240V, compatible with global voltage standards

##### 5. Integrated Multifunctional Design, No Extra Equipment

Built-in 80mm thermal receipt printer for order slips, payment receipts  
Native QR code scanning support for mobile payment (Alipay, WeChat Pay, PayPal etc.)  
Dual 4W stereo speakers for voice broadcast, order reminders & navigation audio  
3.5mm stereo headphone jack for quiet audio playback  
Optional front camera for identity verification, face recognition & photo capture

##### 6. Powerful Media & Software Compatibility

Video decoding: MPEG-1, MPEG-2, MPEG-4, H.264, RV, up to 1080P full HD playback  
Image format: JPEG picture automatic display for advertising slides  
Compatible with mainstream apps: Maps, games, email, market management, ordering & cashier software

##### 7. Safe Certified & Commercial Durable

Passed CE, FCC, RoHS international certification, meets global commercial electrical safety standards. Comes with standard operation manual for easy installation and daily maintenance.

#### Wide Application Scenarios

Food & Beverage: Self-order kiosks, self-checkout machines for fast food, coffee shops, restaurants  
Retail & Supermarket: Self-service cashier, price inquiry, member point query  
Entertainment: Cinema self-ticketing, amusement park ticket collection  
Government Service Hall: Business registration, queuing machine, document printing  
Medical Institutions: Self-registration, payment, medical report printing  
Transportation: Station/airport ticket inquiry, self check-in, guide terminal  
Retail Advertising: Digital signage, product information display
