Product Description

15.6" Dual Screen Capacitive Touch POS Terminal Cash Register | Commercial POS System | OEM/ODM Customizable

This 15.6" dual-screen POS terminal is a high-performance cash register designed for retail, F&B, convenience stores and other commercial scenarios. Featuring a dual-screen design, the main display supports 10-point capacitive touch for cashier operation, while the secondary display simultaneously shows product information and transaction amounts to customers, greatly improving checkout efficiency and customer experience.

Built with industrial-grade design, the G+G tempered glass touch panel is scratch-resistant and wear-resistant, with a 50 million touch lifespan ensuring long-term stable operation. Full customization of CPU, memory, storage and operating system ensures perfect compatibility with various POS software, membership management systems and inventory management systems.

Equipped with rich peripheral interfaces and multiple network connectivity options, it supports common POS peripherals such as printers, scanners and cash drawers. Widely applicable to supermarkets, restaurants, bubble tea shops, clothing stores, pharmacies and other commercial establishments.

Product Highlights

Efficient Dual-Screen Interaction, Enhanced Checkout Experience

Main Screen: 15.6" Full HD touchscreen for accurate cashier operation and faster checkout

Secondary Screen: 15.6" customer display showing item details, total amount and promotions in real-time, building customer trust through transparent transactions

Dual-screen synchronized display, no need for customers to lean over, creating a cleaner and more professional checkout counter

Industrial-Grade Touch, Durable and Reliable

G+G tempered glass capacitive touchscreen with high surface hardness, scratch and wear resistant

10-point precise touch with fast response, supporting multi-touch gestures

50 million extra-long touch lifespan, stable operation for years even with daily high-frequency use

≥90% high transmittance for clear, color-accurate images

Highly Customizable to Meet Different Needs

CPU, memory, storage and operating system all customizable based on customer requirements

Compatible with Windows / Android and other operating systems

Flexible hardware configuration adjustment based on POS software requirements for optimal cost-effectiveness

One-stop OEM/ODM service, supporting brand and appearance customization

Application Scenarios

Retail & Supermarkets — Barcode scanning, membership management, inventory lookup
